BALERS

3B500 MILL-SIZE BALER

This baler will produce bales weighing in excess of 500kg (depending on the material). The ultimate baler is one of a few that actually produces a true wire-tied 500kg.

Ideal for medium volume cardboard & plastic

SPECIFICATIONS

Power Supply	415 Volt 3 Phase
Maximum Bale Size (W x H)	1500mm x 1200mm x 800mm
Loading Aperture (W x H)	1500mm x 773mm x 800mm
Pressing Power	Up to 50 tonnes
Bale Weight	500kg (Depending on material used)
Motor	5.5KW
Cycle Time	40 seconds
Overall Height	3217mm
Overall Depth	1200mm
Overall Width	2100mm
Approx Machine Weight	1650kg

3B RECYCLING

3B250

This midi baler will produce bales weighing up to 250kgs (depending on material) with reliable modern push button electrics and 10 tons of pressure.

Ideal for medium volume cardboard & plastic

Power Supply	240 Volt 1 Phase
Maximum Bale Size (W x H)	1200mm x 1000mm x 800mm
Loading Aperture (W x H)	1200mm x 678mm x 800mm
Pressing Power	Up to 15 tonnes
Bale Weight	250kg (Depending on material used)
Motor	2.2kw
Cycle Time	34 seconds
Overall Height	2900mm
Overall Depth	1185mm
Overall Width	1759mm
Approx Machine Weight	985kg

Can be supplied as Twin or Triple chamber to allow segregation of multiple materials.

3B75

This baler will produce bales weighing up to 75kgs (depending on the material) its 8 tons of pressure, ease of operation and low maintenance make this waste baler a popular choice for the lower volume user.

Ideal for low volume users

Power Supply	240 Volt 1 Phase
Max Bale Size (W x H)	735mm x 500mm x 700mm
Loading Aperture (W x H)	700mm x 698mm x 500mm
Pressing Power	Up to 3.5 tonnes
Bale Weight	75kg (Depending on material used)
Motor	1.5KW
Cycle Time	24 seconds
Overall Height	2335mm
Overall Depth	750mm
Overall Width	1040mm
Approx Machine Weight	278kg

Can be supplied as Twin or Triple chamber to allow segregation of multiple materials.

HORIZONTAL SEMI-AUTOMATIC BALER

Semi-automatic horizontal balers can be with tailored site specific loading methods:

- Splayed open hopper
- Dock loading platforms with remote operator controls
- Caged bin lifting mechanisms
- Left, right or end loading
- Various sizes available to suit site measurement restrictions

Ideal for food manufacturers, large hotels and retail centres.

SPECIFICATIONS

Power Supply	415 Volt 3-Phase 32 amp	**Cycle time**	45 seconds
Maximum Bale Size (W x H x D)	1100mm x 750mm x 1200-1500mm	**Overall height (inc hopper)**	2193mm
Loading Aperture (W x L)	1009mm x 1200mm	**Overall depth**	7000mm
Pressing Power	Up to 50 tonnes	**Overall width**	1782mm
Bale Weight	550kg (Depending on material used)	**Approx machine weight**	7500kg
Motor	11kw

STATIC WASTE COMPACTOR

CALL US TODAY FOR A QUOTE
01473 553533

Ideal for medium-size industrial or large commercial waste producers

The short static compactor is available for hire and has specifically been designed for applications where space is at a premium. This compact machine is ideal for medium size industrial or large commercial waste producers.

SPECIFICATIONS

Power Supply	415 volt 3-phase 32 amp	**Motor**	7.5kw
Control panel voltage	24 volt	**Cycle time**	45 seconds
Clear aperture width	1430mm	**Overall height (top of flange)**	1300mm
Clear aperture length	1200mm	**Overall length**	2000mm
Charge box depth	940mm	**Overall width**	1720mm
Charge box volume	1.62 m^3	**Approx machine weight**	2300kg
Chem volume per stroke	1.37 m^3		

PORTABLE COMPACTOR

Ideal for medium-size industrial or large commercial waste producers.

The 14yd Skiplift Portable Waste Compactor is designed for medium-high volume waste producers with restricted space. Portable compactors can be designed to be liquid proof to avoid leakage from wet waste. When the unit is full it is uplifted, taken away and emptied and returned to site for immediate re-use.

32 Cu Yard mobile compactors available, please request specifications.

SPECIFICATIONS

Power Supply	415 volt 3-phase 32 amp	**Motor**	7.5kw
Control panel voltage	24 volt	**Cycle time**	38 seconds
Clear aperture width	1430mm	**Overall height (top of flange)**	2100mm
Clear aperture length	1000mm	**Overall length**	4568mm
Charge box depth	940mm	**Overall width**	2050mm
Charge box volume	1.34 m^3	**Approx machine weight**	2200kg
Chem volume per stroke	1.14 m^3
